# Specialist bass courses

Now in its 32nd year, Bass Club has given students the specialist tuition they need to reach and go beyond their ambitions. Courses are tailored to the individual's needs and the atmosphere is uniquely supportive. Whether you are an advanced player taking professional auditions or a young player going on your first specialist course these amazing possibilities are available to you. The repertoire, teaching and communication styles have been developed over many years. This year's course will be held at an exciting new venue, St Catherine's School Bramley, with spacious facilities and attractive grounds.

For more information on all courses please see [www.bassclub.org.uk](http://www.bassclub.org.uk)

## Junior Course

This course nurtures the young player within an environment of excellent technical training, concentration and music making. The most experienced young players of this group are Grade 5 and above and will have special attention with a junior masterclass and chamber music. Music making and learning will be fun as well as demanding.

## Main Course

A masterclass with Jan Alm and Caroline Emery kicks off this course of technique classes, quartets and ensemble work. There are lots of performance opportunities and plenty of inspirational advice to improve and build confidence. By the end of the week you will be whizzing around the bass. To be able to cope with this pathway some basic two octave scales need to be comfortable with good posture and bow control. Thumb position will be introduced.

## Accelerated Group

This innovative section will allow younger players to benefit from a carefully crafted timetable over the whole week. There will be progressive technique classes, masterclasses and performance classes. Ability to play in thumb position with some three octave scales is expected. Selection for this course will be by invitation or by submission of a CD/DVD.
